February 11, 2022

So much has already happened this year with us recently starting the second semester. It is hard to believe but the 100<sup>th</sup> day of in-person learning is today, February 11. Although this year has been so much better than what we experienced last year, we have still had our challenges that exist in any year combined with the overlaying issue of covid still around. That said, the support from families and the efforts of staff have truly made this a solid year so far for our students. Thank you for all that you do in being a partner in the education process. Hopefully, the next 80+ days will be as successful as the first 100.

## Upcoming Events / Dates to Remember:
