September 4, 2022

Dear Parents and Guardians:

Enclosed are your child's Dynamic Learning Maps (DLM) test results from the spring 2022 administration. The Dynamic Learning Maps assessment is a large-scale, standardized achievement test. The DLM *Individual Student Report* shows your child's performance on the DLM assessment.

The Dynamic Learning Maps assessment was administered statewide during the spring in English language arts (ELA) and mathematics. In addition, your student may have also taken the science and social studies assessments depending on their grade level. The DLM assessment is intended for students with the most significant cognitive disabilities in grades 3-11 and is designed to compare a student's strengths and needs to clearly defined standards, skill levels, or areas of knowledge. It is aligned with the Wisconsin Essential Elements and measures how students perform in relation to those standards.

As you read your child's *Individual Student Report*, please refer to explanations in the *Guide to Understanding your Child's Individual Student Score Reports* to assist you. In order to obtain a complete picture of your child's academic performance, daily class work, homework and other learning activities should also be considered.

Please feel free to contact your child's teacher or me with any questions. Your child's report will be discussed at their next IEP meeting/parent teacher conference.

Sincerely,

Sincerely,

Melissa Marggraf
Director of Pupil Services

Aaron Hilts
Elementary School Principal

Troy Schaefer
High School Principal
